PROJECTS

Movie Theater Spring API

Developed a REST API for managing movies with ratings. The application was built using Java, Spring Boot, JDBC, and PostgreSQL. Tested API using Postman. Administrated database using PgAdmin.

View code: <https://github.com/destinymalone/movietheater>

Skills utilized:

Backend API Development, Java, Spring Boot, JDBC, PostgreSQL

Ascent - Initiatives Team

Developed features enabling Base Camp Coding Academy students to track progress towards independent and team initiatives. Leveraged Agile techniques: pair programming, continuous integration/delivery (CI/CD), weekly sprints. Deployed to Heroku.
